B.COM Entrepreneurship and Small Business PDF Entrepreneurship and Small Business Notes Entrepreneurship is the process of designing, launching and running a new business, which is often initially a small business along with any of its risk in order to make a profit. The people who create these businesses are called entrepreneurs. A small business is an organization, partnership or sole proprietorship that has fewer resources and annual revenue than a medium or large company. There is a fine line between being a small business (SB) owner and an entrepreneur—the roles actually have a lot in common—but there are distinct differences that set them apart. Small businesses usually deal with known and established products and services, while entrepreneurial ventures focus on new, innovative offerings. Because of this, small business owners tend to deal with known risks and entrepreneurs face unknown risks.
